# The Health Savings Account (HSA) Solution

Lower Premiums + Tax Advantages = Greater Savings

With health care costs increasing year after year, many people responsible for buying their own health insurance find that conventional plans with low deductibles and high premiums are impractical. But going without coverage is unacceptable. An HSA program that offers premium savings and tax advantages may be the perfect solution.

**The HSA solution combines a high deductible insurance plan with a tax-favored savings account.**

- Selecting a higher deductible plan provides premium savings.
- Paying for medical expenses with pre-tax dollars from the account provides tax advantages.
- What you don't spend on expenses you can save for retirement!

## HSAs

An HSA is a tax-favored savings account set up for you and your family. Tax-free deposits can be made to the account. Then you can use the funds to pay for current and future health care expenses or accumulate them to supplement retirement income.

- The money deposited and the earnings on the deposits are tax-free.
- Withdrawals to pay for qualified medical expenses are tax-free.
- Unused balances roll over from year to year.
- At age 65, withdrawals for non-medical expenses are penalty-free but taxed based at current (typically lower) income levels.

### Conventional Insurance vs. High Deductible Plan with HSA

The money you save on premiums with a high deductible plan can be put into your tax-sheltered HSA to grow tax-free year after year. You own the HSA funds and choose how to spend them.

- **SaveRight**<sup>SM</sup> plans provide greater premium savings, which you can use to increase your HSA contributions.

### One Decreasing Deductible

Choose a OneDeductible plan design with the **One Decreasing Deductible**<sup>1</sup> feature and get:

- 10% credited toward your deductible as often as twice a year *and*
- As much as **70% in deductible savings** when your credits accumulate year after year.

See the One Decreasing Deductible pamphlet for details.

# Plan Provisions

## State Variations

Plan design, benefits, features, provisions, definitions and exclusions may vary by state. See the quote summary or the proposal for available features. Refer to the State Variations for state-specific benefits, provisions and exclusions.

## Maximum Allowable Amount

The maximum allowable amount is the most the plan pays for covered services. If you have a non-PPO plan or you have a PPO plan and use an out-of-network provider, you are responsible for any balance in excess of the maximum allowable amount.

## Network Services

When you use network providers, covered charges are discounted and never exceed the maximum allowable amount.

## Out-of-Network Services

### Emergencies

Covered services are always paid at the network benefit percentage — even if you are out of network — subject to the maximum allowable amount.

### Non-emergencies

Covered services are subject to the out-of-network deductible, the maximum allowable amount provision, a benefit percentage reduction, and the increased out-of-network coinsurance out-of-pocket maximum. See the Out-of-Network Costs chart on page 7 for details.

## Medically Necessary Care

Treatment must be medically necessary to be covered. Medically necessary services or supplies must be:

- Appropriate and consistent with the diagnosis
- Commonly accepted as proper treatment
- Reasonably expected to result in improvement of the condition
- Provided in the least intensive setting without affecting the quality of medical care provided.

## Utilization Review

Authorization is required before inpatient treatment and certain types of outpatient procedures. Unauthorized services will result in a penalty of 25% of the charge (up to \$1,000). Unauthorized transplants are not covered.

## Pre-Existing Conditions

A pre-existing condition is an illness or injury and related complications for which, during the 12-month period immediately prior to the effective date of your health insurance coverage: 1) you sought, received or were recommended medical advice, consultation, diagnosis, care or treatment, 2) prescription drugs were prescribed, 3) symptoms were produced, or 4) diagnosis was possible. No benefits are paid for charges incurred due to a pre-existing condition until you have been continuously insured under the plan for 12 months, unless the condition was fully disclosed on the application. After the 12-month period, benefits are paid for a pre-existing condition, unless the condition is specifically excluded from coverage.
